Quality

We at Rama Metal Products strongly believe that supply of products meeting quality requirements of international standards is the key to survival as well as progress of the company and hence we are committed to achieve and maintain world class quality, consistently.

Each component manufactured passes through stringent 3 stage quality control system which is designed as per ISO - 9001: 2000.

Stage I : all raw technical - Brass Casting/extruded Rods, Sheet, Dies & Tools are checked and verified to meet technical specifications of customer as per specific quality plan prepared by us for particular product-customer.

Stage II : IN-PROCESS INSPECTION: We carry out in process inspection at various stages of production, as per customer`s requirements.

Stage III : Final Inspection : Each components is subjected to final inspection before dispatch for followings :

- Dimensional inspection with help of Calibrated precision instruments, fixtures and Gauges.
- Surface Finish inspection
- Visual inspection for its completeness
- Any other tests, as specified by customer or requirement of standards or as per application of products.

Brass Electrical Accessories

We manufacture various types of Brass Electrical Accessories that find application in various electrical fields.

Our ranges of brass electrical accessories are:

Electrical Switch Parts, Brass Electrical Switch Gear Parts, Brass Connectors, Brass Electrical Switch Terminals, and Brass Neutral Links. The brass electrical accessories are usually supplied in natural brass finish, but we also offer other finishes like nickel plated, tin plated or any other as per customer specification.
